

Agassiz Water Users District Service Line Inspectors

Staff from AE2S engineering firm will be visiting properties in the Agassiz Water Users District between **January and July 2026** to complete a water infrastructure inventory. The AE2S staff contracted to visit properties are pictured below, with an illustration of the pipe they will ask to inspect. They are identifying lead, copper, plastic, and galvanized steel service lines that are listed as unknown on the Agassiz Water Users District pipe inventory.
